

To integrate your provided Botpress chatbot into Moodle using the shareable link and embed code, follow these steps:

### Step 1: Access Moodle's Additional HTML Settings

- 1. Log in to Moodle as an Administrator.
- 2. Navigate to **Site Administration > Appearance > Themes > [Your Active Theme] > Additional HTML**.

# Step 2: Embed the Botpress Webchat Code

1. In the **Before BODY is closed** section of the Additional HTML settings, paste the following code:

2. Click Save Changes.

# Step 3: Customize Webchat Placement with CSS

1. To position the chatbot correctly on all Moodle pages, add the following custom CSS:

Navigate to **Site Administration > Appearance > Themes > [Your Active Theme] > Advanced Settings** and add the following CSS:

```
.bp-webchat {
   position: fixed;
   bottom: 20px;
   right: 20px;
   z-index: 9999;
   height: 600px;
   width: 400px;
   box-shadow: 0 4px 10px rgba(0, 0, 0, 0.2);
}

.bp-webchat iframe {
   height: 100%;
   width: 100%;
   border: none;
   border-radius: 10px;
}
```

2. Save Changes.

### Step 4: Purge Moodle Cache

After saving your changes, go to Site Administration > Development > Purge All Caches.

2. Confirm the cache purge to ensure the scripts and styles are applied.

## **Step 5: Test the Integration**

- 1. Open your Moodle site.
- 2. You should see the chatbot in the **bottom-right corner** of the page.
- 3. Test the chatbot to make sure it's working as expected.

### **Optional: Full-Screen Chatbot**

If you want the chatbot to cover the entire screen, use the following CSS:

```
.bp-webchat {
    position: fixed;
    top: 0;
    left: 0;
    height: 100vh;
    width: 100vw;
    z-index: 9999;
}
```

This configuration will integrate the Botpress Webchat into Moodle effectively, providing a consistent user experience.

#### is this all

Yes, the steps I provided cover the basic integration process for your Botpress chatbot into Moodle. Here's a quick summary of the key actions:

- 1. **Embed the Botpress Webchat Code**: You added the script for injecting the chatbot into Moodle's `Additional HTML` section.
- 2. **Customize Webchat Placement**: You used custom CSS to position the chatbot in the desired area on the page (e.g., bottom-right corner).
- 3. **Purge Moodle Cache**: You cleared the cache to ensure the new scripts and styles were applied.
- 4. **Test the Chatbot**: You checked that the chatbot was working properly by interacting with it on the Moodle site.

If you need further customizations such as adding special behavior or adjusting the design for specific pages in Moodle, you can tweak the CSS and JavaScript code further. If you'd like a more detailed step-by-step on any specific part or any additional features, feel free to ask!
